## Skills

**Languages:** Kotlin, Java, JavaScript, C++, Python, SQL

**Data Systems:** Basic knowledge of Hadoop, Spark, MapReduce, Kafka (academic/learning projects)

**Mobile:** Android SDK, Jetpack Compose, MVVM, Coroutines, LiveData, Material Design

**Databases:** Firebase, Firestore, SQLite, Room, MongoDB

**Web and Backend:** React.js, Node.js, Express.js, REST APIs, JSON, HTML, CSS, Tailwind

**Tools:** Git, GitHub, Android Studio, Postman, Figma, VS Code

**Practices:** Test-Driven Development (TDD), CI / CD, Performance Optimization, Agile and Scrum, End-to-End System Design

## Education

SGGSIE&T, Nanded - B.Tech CSE - CGPA: 8.65

2022 - 2026

Vidhyadham Prashala Shirur, Pune - 12th - 84.83%

2020 - 2021

S.S.R.B Gujar Prashala Talegoan Dhamdhere, Pune - 10th - 92%

2018 - 2019

## Experience

**OrderHub — Ecommerce Store Management System** - React Native Developer

Dec 2024 - Jan 2025

- Collaborated with stakeholders to define app flows and create user journeys through detailed Figma wireframes.
- Designed intuitive UI screens following Google's Material Design system for cross-platform consistency.
- Planned functionalities: multi-channel order management (WhatsApp, Telegram), PhonePe payment verification, inventory tracking, worker collaboration, and real-time updates.
- Focused on designing scalable flows, taking inspiration from distributed system concepts.

## Projects

**CricXone — Real-Time Cricket Fan Engagement App** - Application Developer

May 2024 - May 2025

- Developed an Android app with live scores, video feeds, news, chat, and meme sharing features.
- Implemented custom chat and meme system supporting media, polls, deletions, and moderation.
- Designed engagement tracker ranking users and teams to boost participation.
- Optimized RecyclerView with DiffUtil and caching, reducing API calls by 30%.
- Simulated event-driven architecture for real-time updates, similar to streaming pipelines.

**CampusCore — Smart College Management System** - Mobile App Developer

Feb 2025 - Mar 2025

- Led development of a role-based campus app for students, faculty, dean, doctor, and security with Firebase Auth.
- Deployed QR code login and real-time misconduct reporting across admin hierarchy.
- Integrated modules for elections, complaints, booking, and notifications with coroutine-backed Firestore sync.
- Optimized performance and user interface integration using LiveData and coroutines.
- Built reporting flows resembling compliance monitoring pipelines.

**JobIt — AI-Powered Job Prep and Tailoring App** - Android App Developer

Mar 2025 - Apr 2025

- Directed a team to create an AI-powered app for job discovery, resume tailoring, and interview preparation.
- Integrated Gemini API to analyze job descriptions and generate tailored resumes dynamically.
- Implemented chatbot using Kommunicate SDK to simulate interview questions by job role.
- Built secure profile system with resume upload, contact information, and job title storage in Firebase.
- Followed end-to-end system design practices with focus on data integrity and user privacy.

**DevFolio — Full Stack Portfolio Web App** - Full Stack Web Developer

Aug 2025 - Present (In Development)

- Delivered a production-ready MERN portfolio using React (Vite, TypeScript, Tailwind), Node.js, Express, and MongoDB Atlas.
- Designed 3D interactive hero (react-three-fiber) with glassmorphism, parallax tilt, and micro-animations.
- Integrated live app demos (Appetize.io and Expo Snack) with responsive iframes and YouTube fallbacks.
- Built CMS-style admin panel with JWT authentication for project/blog CRUD and Cloudinary uploads.
- Deployed with Vercel, Render, and MongoDB Atlas, optimized for SEO, Core Web Vitals, and recruiter-friendly performance.

## Technical Problem Solving

- Solved 460+ **DSA problems** on GeeksforGeeks with a Max Contest Rating of **1532** and secured a Top 50 Institute Rank.

## Leadership and Initiative

**Founder, YouTube Channel "Story Network" (250K+ Subscribers)**

- Scaled channel from scratch by managing creators and executing engagement-driven strategies, boosting viewership by 40%.

**Team Lead - National Hackathon Projects (2025)**

- **JobIt** - AI-based job prep app, won 1st Runner-Up at Hackspectra (50+ teams).
- **CampusCore** - College management app, won 1st Runner-Up at Hack Fusion (100+ teams).
